What's the Buzz?

with Deez L'Town Beez

Hello friends and fellow keepers!

Something New Is Buzzing at Deez L'town Beez!

We've been busy putting together a few new goodies, and we're excited to introduce three new additions to the Deez L'town Beez family! Whether you're looking to treat yourself, try something new, find a thoughtful little gift, or bring a bit of bee-inspired goodness into your everyday life, we've got you.

Bee Sweet – Sampler Trio *A little taste of the hive!*

Can't decide which honey goodness to try? Now you don't have to! Our Bee Sweet Sampler Trio brings together three bee favorites in one convenient package:

- Whipped Honey, 2oz – A smooth, creamy honey treat.
- Fresh Bee Pollen, 2oz – A little taste of what makes the hive so special.
- Liquid Honey, 4oz – A classic favorite, straight from the hive.

With three different ways to enjoy the goodness of the bees, this sampler is a wonderful way to explore, share, or introduce someone to the delicious variety of hive products.

Bee Pampered – Samplers *A little self-care, with a buzz!*

Treat yourself, or someone you love, to a little pampering. Both Bee Pampered sets, the Weekend Travel Kit and the Body Sampler, include trial sizes so you can try a little of everything.

They're perfect for freshening up your travel routine or giving someone an everyday indulgence, small enough to take along and sweet enough to make an ordinary day feel special.

We're especially proud of how simple these products are. Each is made with a short list of natural ingredients, because what you put on your body matters. Ingredients matter even more for friends living with alpha-gal, and we keep those needs in mind. If you have allergies or sensitivities, we're happy to go over the full ingredient list with you before you buy.

Because sometimes you just need to slow down and Bee Pampered!

Bee – Fired Up! *A little spark of something special!*

Get ready to cozy up! Our Bee Fired Up! natural beeswax fire starters bring a little help from the hive to your next fire. Made with natural beeswax, these fire starters are a fun and practical addition to your fireplace, fire pit, or camping supplies. They're also a unique gift for the outdoor enthusiast, the backyard fire-pit lover, or anyone who appreciates a useful product with a little personality.

A Little Something for Everyone

At Deez L'town Beez, we love finding new ways to share the gifts of the hive. From delicious honey and bee-inspired personal care to useful products made with beeswax, each new offering gives us another opportunity to celebrate the amazing world of bees.

We hope you'll give these new products a try. And as always, thank you for supporting our small business and the work we love doing.

Stay sweet, stay curious, and keep buzzing!

December 12 & 13th, 11am - 4pm

Kris Kringle Christmas Market
Charles County Fairgrounds
December 11-13th

A Business Built on Respect, Fairness, and a Little Heart

At Deez L'town Beez, I believe how you do business matters just as much as what you sell.

I believe in treating people fairly, offering quality products at honest prices, and doing the right thing, even when it's not the easiest or most profitable choice. Customers deserve honesty and respect, and I never want anyone to feel they've been taken advantage of.

I believe in supporting fellow small businesses, not competing at their expense. We're all working hard to build something meaningful, and there's room for all of us to encourage one another, collaborate, and help each other succeed.

That same respect extends to the bees, whose hard work makes so much of what we do possible. Responsible beekeeping practices, appreciation for nature, and genuine care for people are at the heart of this business.

My goal is simple: to offer good products, treat people right, support my community, and feel good about the way I do it.

Because doing good business should mean doing good by people, too. Thanks for your support.
