

What's the Buzz?

with DeeZ L'Town Beez

Hello friends and fellow keepers!

Soaps, Salves & Sweet Holiday Gifts

DeeZ L'town Beez is excited to take part in several wonderful Christmas markets this December, and we're bringing a fresh lineup of handmade, bee-based creations perfect for holiday gifting.

Our newest gift sets feature handcrafted soaps made with honey, beeswax, and pure essential oils, paired with soft, handmade cotton washcloths each with a convenient hanging loop. Every set includes either a sisal scrub bag or a wooden soap rack and is available for just \$18. These all-natural soaps smell amazing and make thoughtful gifts for friends, teachers, coworkers, and anyone who appreciates artisanal, small-batch products.

We're also proud to introduce two exciting new products this season: our Clean Bee Dish Soap, a powerful eco-friendly kitchen essential that tackles grease while staying gentle on hands, and our Rustic Razor Shave Soap Kit, complete with a handcrafted shave puck and shave brush for a classic, luxurious shaving experience. Both make wonderful gifts for anyone who loves natural, practical, beautifully made goods.

You'll also find our full range of favorites, including beard balm, tattoo goo, propolis salve, body butter, lip balm, bowstring wax, and paw butter for pets. And of course, our classic honey and whipped honey timeless gifts enjoyed since ancient times will be available as well.

We'll be joining the Kris Kringle Market, a massive three-day holiday event featuring hundreds of vendors perfect for knocking out all your Christmas shopping in one festive stop. You can also support a meaningful cause at The Suttler Post event on December 13 & 14, which benefits Hospice of St. Mary's.

Stop by, sample our goods, and pick up unique, handcrafted gifts that bring the warmth of the hive to your home. Can't make it to the markets? You can always order online anytime at deezltownbeez.com.

December 13 & 14th, 11am - 4pm

Recycle & Reuse

Bring back your glass honey jars and get \$1 off your next jar.

Seasonal Beekeeper's Reminder

Listen, Don't Lift

This month, your bees are tightly clustered and conserving energy. Instead of opening the hive, place your ear gently against the side and listen for a steady hum. A soft buzz means the colony is active and doing what it should. Keep entrances clear of leaves or snow and make sure lids and straps are secure so winter winds don't disturb them.

Merry
Christmas &
Happy
Keeping!
